TO WHOM IT MAY CONCERN

I am writing this letter to support **Mr. Mohammed Fahad S Alqadda** application for admission to graduate studies at your prestigious university. I know him as a course instructor for "Data Structures" course and have assessed his performance in the course to be excellent. He demonstrated a firm understanding of the concepts taught in the course. I have also been in contact with him as Chair of Computer Science program. I can rank him in top 5% of all the students who took courses with me during last 12 years of teaching at PMU.

Mr. Mohammed has shown a capacity for both being punctual and persistent in my classes. I have seen him work hard and with dedication. He also demonstrated that in addition to being a great performer in an individual capacity, he can work well as a responsible team member. He actively participated in class room discussions. Every course related task assigned to him was undertaken with great responsibility.

Mr. Mohammed has shown the tenacity to learn new concepts by himself and rigorously apply it on real world projects. I was highly impressed with his dedication, self-learning, communication and problem-solving skills during his senior design project ("Autonomous Gardening Robot for Home Care").

As a faculty member, I am fully convinced that he will distinguish himself in graduate school. He has the technical strength, the maturity and the ability to express in a precise and fluent manner. Due to his hardworking nature, and his natural aptitude towards research and problem solving, he will prove to be a competent resource in your graduate program.

I am pleased to highly recommend him for your program and wish him all the best.
Please let me know if you have any further questions.

Sincerely,
Dr. Majid Ali Khan
Assistant Professor/Chair, Computer Science,
College of Computer Engineering and Science
